

Carderock Division

NAVAL SURFACE WARFARE CENTER CARDEROCK DIVISION

The Navy's National Maritime Technology Center

Novel Engineering Solutions Using Composite Materials (and other technologies)

Revolutionary Hull Shapes (among other technologies)

"Our mission is to provide research, development, test and evaluation, fleet support, and in-service engineering for surface and undersea vehicle hull, mechanical, and electrical (HM&E) systems, propulsors, logistics research and development, and to support to the Maritime Administration and maritime industry and the United States Navy"

Sign up for an on-campus interview with NSWCCD through your Career Services Center

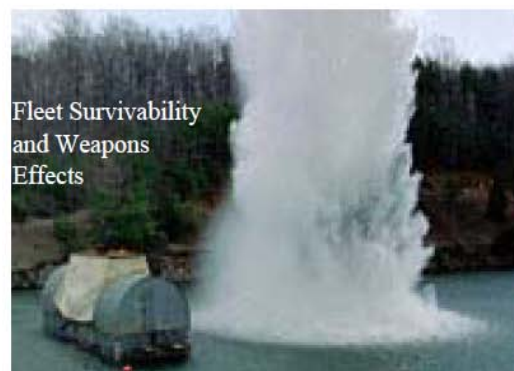

On-Campus Interviews will be held:

November 1, 2011

The Naval Surface Warfare Center Carderock Division (NSWCCD) will be on campus October 31, 2011 for an information session at 337 Towne from 6:00 – 7:00pm. This information session will give you a more detailed description of our organization and what we are doing in the management of ships and ships systems. It will also explain how you as an engineer working for us will play into the important mission of the organization.

Combatant Craft, Boats, and Unmanned Surface Vehicles

Fleet Survivability and Weapons Effects
